ABOUT NEW PERIMETER

MISSION
New Perimeter provides long-term pro bono legal assistance in under-served regions around the world to support access to justice, social and economic development, and sound legal institutions.

VISION
Our vision is to harness the skills and talents of DLA Piper lawyers to further a more just world for all.

New Perimeter is a nonprofit organization established by global law firm DLA Piper to provide pro bono legal assistance in under-served regions around the world to support access to justice, social and economic development, and sound legal institutions. Founded in 2005 as a result of our firm’s commitment to support legal advancement worldwide, New Perimeter’s vision is to harness the skills and talents of DLA Piper lawyers to further a more just world for all.

New Perimeter is at the forefront of providing direct assistance to charitable organizations, governments and academic institutions on projects designed to strengthen a country’s legal system, improve the skills of its judges, lawyers and law students, encourage economic growth, promote access to justice and the rule of law, and strengthen women’s rights. We also do this by providing strategic legal counsel to organizations working to further these same goals. Whether we are teaching at a law school, training judicial officials, helping a government draft laws or providing technical assistance to a non-governmental organization (NGO), one of our primary goals is to increase the capacity of the local institution.

In 2015, nearly 220 DLA Piper lawyers from 44 offices worldwide worked on 50 New Perimeter projects. New Perimeter’s work has been recognized with a number of awards over the years, most notably the Lifetime Achievement Award for Global Citizenship from The American Lawyer.

To maximize our impact, our full-time staff develops and manages projects and often makes multi-year commitments to our clients. We build long-term relationships with our project partners and send our lawyers to work alongside our partners and clients in-country whenever possible. When considering new engagements, New Perimeter relies on stringent project selection criteria to match the firm’s capabilities with our clients’ needs. We select our legal teams on a competitive basis from a diverse pool of interested DLA Piper lawyers. Because New Perimeter is committed to an interdisciplinary approach, we regularly team with DLA Piper clients, academic institutions and NGOs, working together to achieve our mutual goals.

New Perimeter benefits from the guidance of its Advisory Board, made up of thought leaders from the public and private sectors.

ACCESS TO JUSTICE

Accessing legal remedies for grievances through the justice system is a fundamental right that is frequently unavailable to poor and vulnerable populations. New Perimeter is working to narrow this gap by empowering both justice seekers and those who assist them.

Examples:
- Our lawyers are training the next generation of lawyers in Latin America to provide pro bono legal services to those unable to afford legal counsel.
- We assisted an organization in the development of a smart phone application designed to enable individuals to identify and report atrocities around the world.
- A New Perimeter team of lawyers worked with a paralegal association in Namibia to help community leaders inform rural Namibians of their legal rights.

SOCIAL AND ECONOMIC DEVELOPMENT

Social and economic development are closely linked, as economic growth can help alleviate poverty and raise standards of living. New Perimeter is helping to foster both through its global initiatives.

Examples:
- New Perimeter collaborated with major international microfinance institutions to draft model legislation to increase consumer protections for microfinance customers.
- We advised the Government of East Timor and trained law students from across Africa on the creation of special economic zones as a tool to encourage economic growth.
- We worked with an international development organization to increase access to finance for rural African women.

SOUND LEGAL INSTITUTIONS

Functional legal institutions are necessary precursors to political stability and economic development. New Perimeter is helping to strengthen legal sectors and build the capacity of lawyers and law students around the world.

Examples:
- In Kosovo, we helped draft the laws creating the court and prosecutorial systems, trained government lawyers and assisted the Kosovo Bar Association.
- A New Perimeter team drafted desk reference manuals and delivered innovative, simulation-based workshops for magistrate judges and prosecutors in Guyana.
- We helped build capacity and trained students at more than ten law schools across Africa, Latin America and South East Asia.

WOMEN’S ADVANCEMENT

Research has shown that empowering women is an indispensable tool for advancing development and reducing poverty globally. New Perimeter aims to support women’s advancement as an overarching goal of a majority of its projects.

Examples:
- New Perimeter worked to support and increase the number of female lawyers in Kosovo.
- We advised Peruvian lawmakers on how to strengthen Peru’s anti-domestic violence laws.
- New Perimeter partnered with several NGOs and the US State Department on initiatives to combat human trafficking.
